

Name : AKASH SAMPATH

Module : Week_1_Lab_1

Lab Road Map

Practical based	Tools	Concept
Verify Computer	Git , GitHub , Visual Studio Code , CMD	Basic developer environment
HTTP APIs	curl , Postman	HTTP , GET , POST , headers , status code , JSON
Linux Basics	Ubuntu , EC2	Files , folders , permissions , process
Git and GitHub	Git , GitHub	Branches , Commits , Merge , Pull Requests
Shell scripting	Bash	Automate Linux tasks
Networking basics	Linux , Curl	IP , DNS , ports , HTTP / HTTPS
Nginx	Nginx , Linux	Web Server , Reverse proxy
Docker basics	Docker	Images , Container , Dockerfile
Docker compose	Docker compose	Multi container applications
Jenkins	Jenkins , GitHub	CI / CD [Continuous Integration / Development
AWS EC2	AWS	Cloud servers
AWS IAM	AWS	Users , roles , permissions
AWS S3	AWS	Object storage
AWS RDS	AWS	MYSQL database
AWS ECR	AWS	Docker image registry
AWS ALB	AWS	Load balancing
Cloudfront	AWS	HTTPS , HTTP
AWS development	Docker + AWS	Deploy complete application
CI / CD Project	Jenkins + AWS	Automatic Development
